

Solar powered battery trickle charger (4.5W)

Perfect match for maintaining batteries in cars, recreational vehicles, SUVs and trucks. Protects against natural battery discharge and electronic drain. The Coleman Solar Charger provides immediate trickle-charge when exposed to daylight, even through windows or windshield.

- Extends the life of your battery and prevents dead batteries
- Engineered to maintain your 12V starting battery
- Can also be used to charge small electronic devices such as GPS and cell phones
- LED indicator lets you know the panel is charging
- Mounting screws included if you choose to fix your panel to for example the dash board
- Plug'n'Play® for quick connections, cigarette lighter adapter and battery clamps included.
- Good news: this compact panel doesn't need a charge controller

Specifications	
Model number	CL-300
Item number	72001
UPC-code	7 75540 72001 4
Power	300mA, 15V (4.5W)
Case protection	Not Weatherproof
Warranty	2 years
Certification	CE
The box includes	
(1) solar panel CL-300	
+ (1) 10' Power extension cable	
+ (1) cigarette lighter adapter	
+ (1) battery clamp connector	
+ (1) mounting screw set (containing 4 screws)	
+ (1) instruction manual	
Weights & Dims	
Dimensions	13.8" x 10.7" x 0.6" 35 cm x 27.3 cm x 1.6 cm
Weight	1.9 lbs 0.85 kg
