

Solar Charger

SE-1500

Solar Powered Charger (23.3 W)

- Charges batteries and protects against battery drain.
- Can replace the daily power consumption of 12V lighting systems and appliances in Boats, Cabins and RV's.
- Can also be used for Charging small backup power systems.
- No more worries about dead batteries.

- The Sunsei Solar Charger provides immediate charge when exposed to daylight even on cloudy days.
- Engineered to charge 12V batteries including automotive, electric car, deep cycle, gel cell and heavy-duty.
- Push button touch action indicator lets you know that the panel is charging.
- Totally weather resistant.
- Quick connect allows user to easily connect multiple panels together for increased power with no tools needed.
- Mounting hardware included.
- Comes with multiple wire adaptors to attach the charger to different connectors.
- This Powerful Solar charger should be used with a charge controller such as the Sunsei CC10000 to avoid over charging the battery.
