

Solar Charger SE-4000

- Perfect for back up power in RV's and mid sized to large boats.
- This powerful solar panel provides reliable, clean renewable energy as an alternative to noisy and expensive diesel, propane and gas generators.
- Generates power all year round when exposed to daylight, even on cloudy days.
- Charges multiple batteries at once, works with your vehicle's or cabin's electrical system.
- Can charge a battery in 5 hours*.

* A U1 (40AH) type battery in full sunlight with battery at 50% discharge)

Solar Power Charger (65 W)

- Aerodynamic design specially engineered to reduce drag and withstand high-vibration on mobile applications
- Integrated blinking LED indicator light lets you know your panel is working.
- Totally weather resistant.
- Quick connect allows user to easily connect multiple panels together for increased power with no tools needed.
- Mounting hardware included.
- Comes with multiple wire adaptors to attach the charger to different connectors.
- This Powerful Solar charger should be used with a charge controller such as the Sunsei CC10000 or CC25000 to avoid over charging the battery.

SUNSEI® My Solar Lifestyle

SPECIFICATIONS

Model number	SE-4000
Item number	IC-SE4000
UCP-codes	775540250382
Power	4A, 16.5V (65W)
Case protection	weather proof
Warranty	20 years power warranty
Certification	CE

THE BOX INCLUDES

1 Solar panel SE-4000
6 Mounting brackets
1 Extension wire connector
1 Multi Language Instruction manual
