

Solar Charger SE-6000

- Perfect for back up power in RV's and mid sized to large boats.
- This powerful solar panel provides reliable, clean renewable energy as an alternative to noisy and expensive diesel, propane and gas generators.
- Generates power all year round when exposed to daylight, even on cloudy days.
- Charges multiple batteries at once, works with your vehicle's or cabin's electrical system.
- Can charge a battery in 3 hours*.

Solar Powered Charger (100 W)

- Aerodynamic design specially engineered to reduce drag and withstand high-vibration on mobile applications
- Integrated blinking LED indicator light lets you know your panel is working.
- Totally weather resistant.
- Quick connect allows user to easily connect multiple panels together for increased power with no tools needed.
- Mounting hardware included.
- Comes with multiple wire adaptors to attach the charger to different connectors.
- This Powerful Solar charger should be used with a charge controller such as the Sunsei CC10000 or CC25000 to avoid over charging the battery.

SUNSEI® My Solar Lifestyle
